# Silent Space

Vast space,

I was alone,

jumping free in the dark.

The spectacular Sun like a  
fireball...

Freezing,

far from the Sun.

It's easy to get lost

in the Earth's chilled, cold atmosphere.

Adventure in Space

Calm space.

The sparkling stars,

Flew past enchanted moons.

The meteors and asteroids,

Whoosh by.

Comets,

Flew through moon dust.

There is tranquility -

Like silence of swaddled babies.

Stunning.
