

# Winchester Science Centre!

Emerald Class

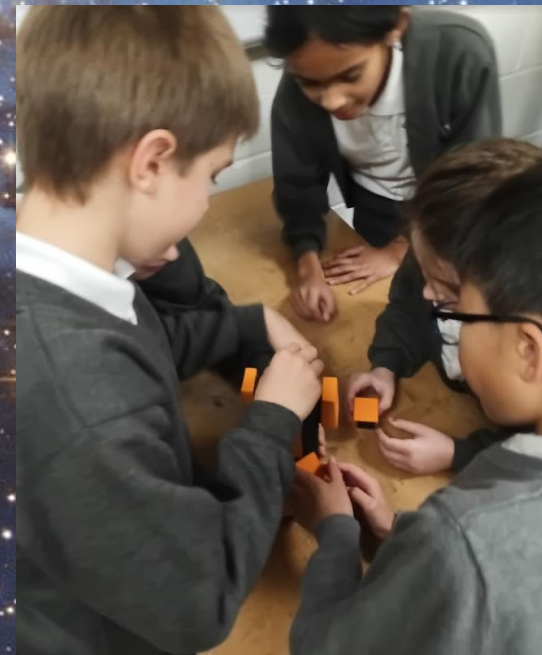

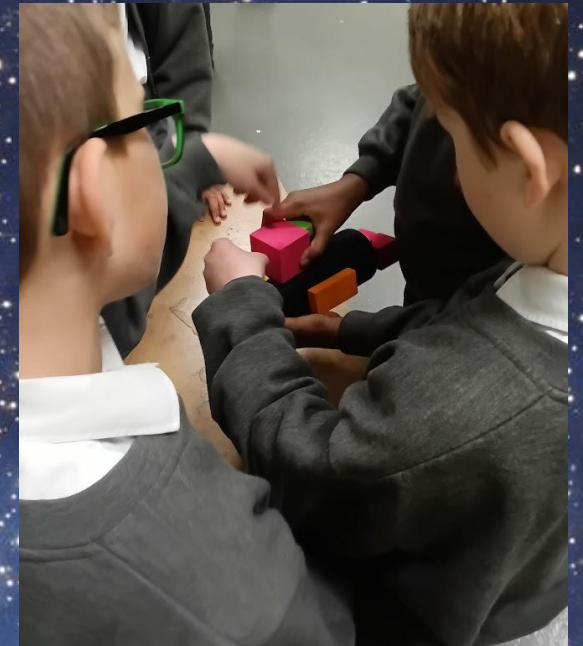

**Winchester**  
Science Centre

We started our day by learning about rockets from a real scientist!

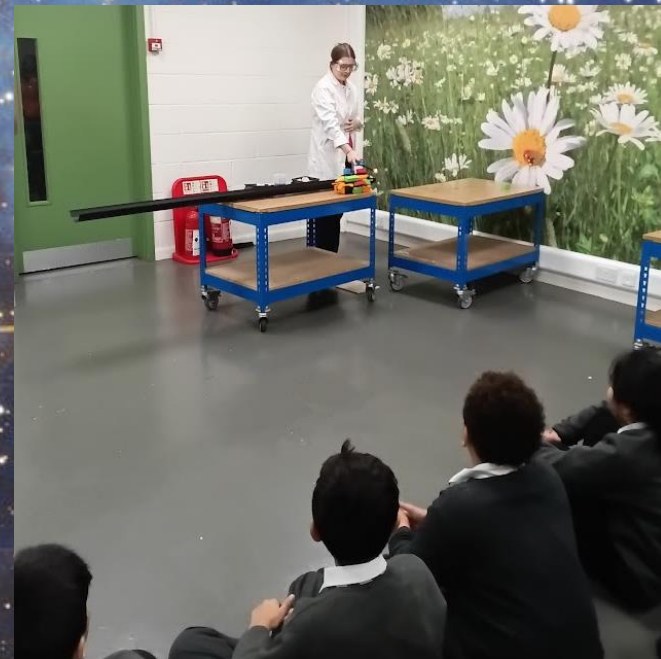

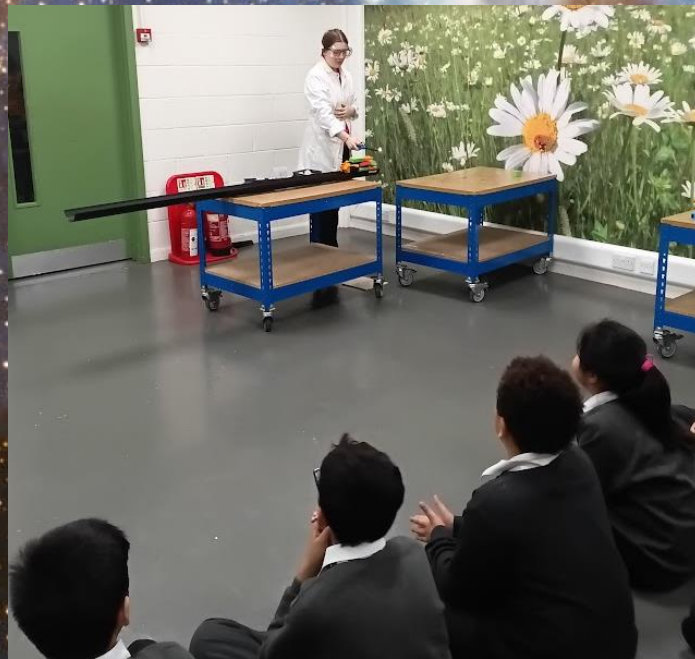

Then we had  
an opportunity  
to test and  
create our  
own!

Our rockets  
were a huge  
success!

Next, some of  
us accidentally  
discovered a  
Vincent Van  
Gough,  
Sunflowers  
inspired room!

One of the most exciting parts of the day was experiencing the planetarium!

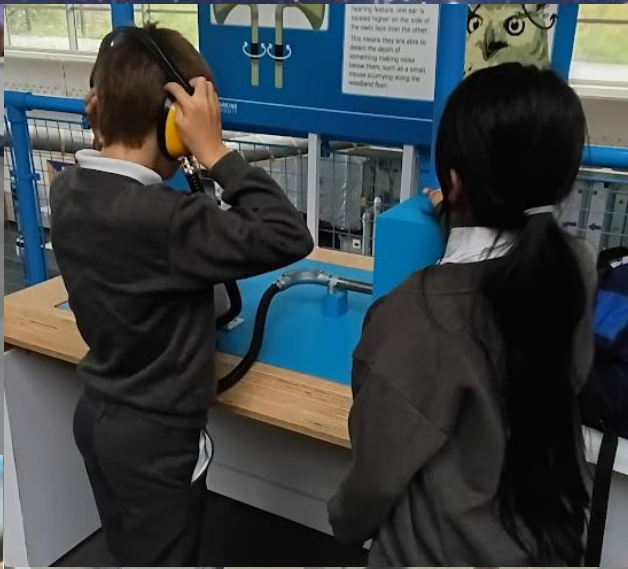

Then, we got to explore the first exhibit: Sound and movement.

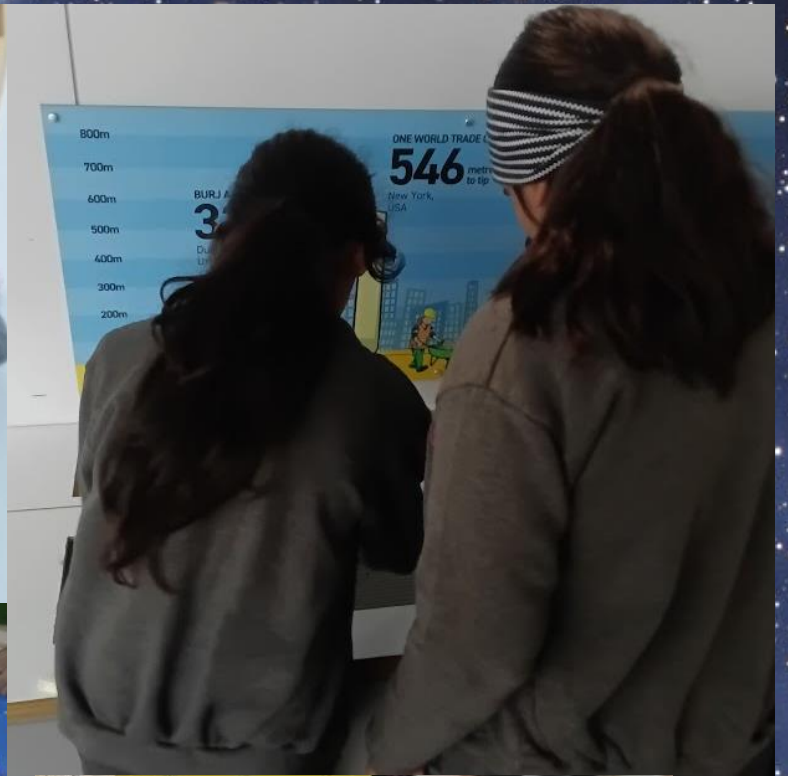

To end our day,  
we explored  
the Space  
exhibit!

Some of us  
found some  
optical  
illusions!
